Stockholders of Rushville Cooperative Telephone Receive First Cash Returns From Investment

WAS ORGANIZED IN 1894

Surplus Has Been Used to Build up System and Keep Rates Low-Accumulation of \$30.000

The Rushville Co-operative Telephone Company, organized in 1894, has just declared its first cash dividend to the stockholders, and checks amounting to 100 percent on the stock are being mailed out to owners of stock on record March 1.

The announcement of a cash dividend, and especially one of such a large amount, came as a distinct surprise to the shareholders, and reyears gone by, the stockholders have ment of the plant has been exceedingly good, and that an automatic exchange has reduced overhead ex

Although the dividend is the first cash benefit that the stockholders have ever received, vet in all of the years gone by, th stockholders have received a reduction on their telephone service, which has yielded them about a ten percent investment.

The company was organized in 1894 with 400 shares of stock available, at par value of \$25. Today the stock is owned by 245 individnals, as the charter of the organization sets out that no one person shall own more than three shares of stock.

Although the par value is only \$25, which is the amount of the 100 percent dividend, yet it has been several years since stock in the company has been sold at par, and the usual run has been at double par or even better by a few points.

In explaining the dividend at this time, George H. Davis, manager, stated that the company had accumulated \$30,000 and had expected to make an additional purchase of some county system this spring, but there is none for sale now, and the holders the benefit of the surplus.

The dividend announcement of the local organization comes at a time when other telephone companies are clamoring for higher rates, asserting that no money can be made unless the rates are raised. The Rushville company has a record unequalled by any city the size of Rushville, in the fact that the rates here have never been raised since the automatic system was installed in 1907.

Even managing with the old rates, the company has prospered through all of the years, and today owns three buildings, miles of lines, with exchanges in Glenwood and Milroy, and with about one-half of the wires in Rushville laid under ground in

cables The company would have paid dividends long ago, had they stopped with improvements, but the directors pushed forward every effort to extend the service, and held the rates

## Bank Clerk Rescued From Death in Vault Closed as a Prank hy a Fellow Employe

(By United Press) Charles DiGiacomo, 20, Will Live as Result of Heroic Battle of Firemen, Police, Associates and Towns People at Paterson, N. J.

Paterson, N. J., March 9-Charles DiGiacomo, 20, bank clerk, rescued unconscious from a time locked safe shortly before last midnight, will live as the result of a heroic battle of firemen, police, associates and towns-people to get him out of the air tight vaults it was announced at General Hospital today.

DiGiacomo, accidentally locked in the vault by a youthful associate, William Templeton, was found near death, his hands and feet bleeding, after the rescuers had worked in relays for four hours, drilling and

burning their way through the thick steel roof.

The clerk's plight was the result of a joking prank. As he was working near closing time in the vault, Templeton, his chum, called to him to "hurry up or I'll lock you in." DiGiacomo answered laughingly and Templeton, authorities said, gave the door a slight shove "to scare him."

The door moved easier than Templeton thought and as he heard the time lock's click he ran screaming to Garrett Kieulken, cashier. The vault, of highly scientific construction, once locked in the evening couldn't be opened until 8:30 the next morning.

Jacob Kushner, banker, directed the rescue. He sent in an alarm that brought firemen, police, hospital at-

Senator Walter Chambers. State Democratic Chairman, Launches Broadside Against Legislature

Indianapolis, Ind., March 9 .- The oldier bonus was still before Governor McCray for approval or rejection today bearing the recommendation of Attorney General Lesh that the question be submitted to a referendum as the bill provides, without any attempt to pass on its constitutionality now.

Lesh's opinion was transmitted to the governor's office yesterday afternoon. It was at variance with the view of Governor McCray and tion the bonus violates that part of the constitution which prohibits a referendum on any bill enacted by the legislature. As a result of these different ideas, the fate of the bonus was in doubt.

While the governor debated over whether to sign the bill or veto it. Senator Walter Chamber, democratic state chairman, launched a broadside against the republican majority of the legislature just adjourn-

The legislature increased the tax burdens between \$8,000,000 and \$10,000,000 a year, Chambers said. This is in excess of all direct taxes collected in any year prior to 1919 when the Goodrich tax law became effective, Chambers said.

Chambers declared the principal additions to the tax burden consist of increased automobile license Chicago, March 9.—Back fence fees and the gasoline tax of two

aches, a physician, and skilled workmen from construction firms and the electric light company. In relays, the men attaced the 18 inch room of the vault with drills and torches, the latter being abandoned as the first small opening was made, to save the air inside. Through the first opening Dr. Irving Newman placed an oxygen tube and himself manned oxygen pumps. Kushner dropped a note to the boy telling him he would soon be out, but the lad was already unconscious near complete suffocation.

As hundreds crowded outside the bank the rescuers worked desperately. Kushner had an ambulance backed up to the door, the motor running and the driver at the wheel ready for a dash to the hospital.

Another hours' work and he lowered himself into the vault and brought DiGiacomo out.

As the boy's parents heard the cheers of the crowd at the rescue, they collapsed in their home where they had been persuaded to stay. Templeton also collapsed as the resue neared completion.

DiGiacomo's face was bruised and blackened, his finger nails torn and bleeding as he was carried out, evidence of the terror he had gone through before he lost his senses. His body was limp and his breathing hardly discernable with medical instruments.

WALKING IN THE LIGHT:-Then spake Jesus unto them, saying, I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life.-John 8: 12.

#### Justice and The Courts

When justice is lax how can the people be expected to revere the the law? The proprietor of a candy factory in Washington, D. C., was recently arrested for operating an insanitary place. Some 4,000 pounds of eandy were confiscated, kerosene was poured over it and it was burned. It had been stored where the rats were messing in it, the stock apparently being drawn on as sales demanded. The offender was fined \$20 on a plea of guilty.

But this was by no means the worst of it. On the sworn testimony of the Federal food inspector it appeared that on December 15, 1920, the offender forfeited \$15 for the same offense. Soon thereafter he was again apprehended and fined \$10 on similar charges. Again on May 19, 1921, he pleaded guilty to a fike charge and was fined \$15, and a fourth time, he was fined \$20 for the same thing. Five times was this man hailed before court for endangering the health of his patrons, and each time he received a nominal fine. The fines in the aggregate amounted to \$80 or about the value of 200 pounds of his candy sold at retail.

What a travesty of justice! To what respect are such courts entitled which, when such outrageous affronts against common decency come before them, dismiss them with mere deprecatory action? And when, the offender repeatedly offends and is as repeatedly admonished, what good purpose do such anemic judges subserve? They make the law a laughing stock.

As a contrast to the candy man, the case of a Pennsylvania man suggests the other extreme. This case was reported the same day. The culprit in question was sentenced to serve three years in the Eastern Penitentiary and to pay a fine of \$100 for the theft of two chickens.

There are fewer details at hand concerning the chicken stealer, but it seems as if justice were blind in Washington and cross-eyed in Pennsylvania; that to endanger human life by selling rat-defiled candy were a trifling misdemeanor, while the lifting of a couple of pullets pulverized the decalogue. As between the two, however, the Pennsylvania judge is much more to be admired. House members would be quite as The chicken "fancier" will probably leave his neighbors' pullets alone hereafter, while the candy maker will add his latest fine to the price at so much pro ratta, and placidly awa't his next summons.

Meanwhile the people will be exhorted to respect the law. Obviously to have a faculty for being the centhere are some courts which should ter of trouble. be stimulated to make the law respectable, by the removal of indifferent judges, if necessary.

## LUCK FIGURES IN STATE TOURNEY

Regional Drawings Reveal Lucky Streak for Some Teams, Which Will Have Easy Opponents

OTHERS DRAW HARD ONES

Drawing This Year Will Not Mean That the 16 Entering State, Are the Best Ones to Survive

By HEZE CLARK

Indianapolis, Ind., March 9-The element of luck enters into the Indiana state high school basketball championship tournaments this year more than ever before. This is due to the fact that the state was divided into forty-eight sections instead of thirty-two as was the case in 1922 for the holding of sectional tournaments. The increase was made necessary by the fact that 596 teams were entered and it was impossible to play the games in only thirty-two

It is in the regional tourneys that luck is most evident. They are to be played tomorrow and Saturday in three cities-Ft. Wayne, Lafayette and Bloomington, Teams that 'are fortunate enough to have drawn the Bloomington regional will have to play only one game there.

Some of the teams at Lafavette and Ft. Wayne will also play in only one game, having been lucky enough to draw a "bye". For example there are eighteen teams entered at both Lafavette and Ft. Wayne. When these teams have played one game each, nine teams will still remain. This number must be reduced to five and eight of them will play a second

It is evident that luck in the draw plays an important part in winning championships.

napolis to fight it out for state honors March 16 and 17. They will be the teams that qualify at regional

This does not mean that the sixteen teams are the best in the state owing to the fact that some of the drawing caused a number of the best teams to meet in the regionals and some strong ones were eliminated. An example is the Bloomington Bedford game. One of these teams will be eliminated in the regional tourneys. The same is true of Columbus and Central of Evansville. Again it is true in the case of Frankfort and Emerson of Gary who will meet at Lafayette. Some of the very strongest teams have been fortunate enough to draw in the regionals an opponent that critics do not consider unusually strong.

Vincennes is an example, being scheduled to meet Handver. The society. powerful Anderson team should not

## SCHOOL PROFITED WITH THE TOURNEY

Athletic Association Receives \$479 .-24 as its Share of Receipts at Sectional

REPORT BY E. B. BUTLER

Balance After all Expenses Are Paid Probated on Basis of Season Tickets Sold

The Rushville high school athletic association made more money on the tournament last week than in any other tourney, according to the financial statement issued today by E. B. Butler, principal of the high school, which shows the local treasury better off to the extent of \$479 .-

Although the total receipts this vear were not as great as two years ago, yet the local school made more money on account of the distribution of funds, given on a rating as to the number of tickets sold.

The biggest expense was the handling of teams, which cost \$608 .-06 for lodging, meals, and other expenses. The total receipts were \$1,-542.86, and a schedule of payment of bills was given in advance by the state association, showing how the distributed.

Another factor which caused Rushville to get more money this year was the fact that only 14 teams were entered, while in one tourney held here there were 21 teams, and this added greatly to the expense.

If I Had a Patent-

F I wanted money to promote a patent which I owned, I would get in touch with practically every person in this territory able to lend me the money on my idea-ready to back me.

There are plenty of men with money for this purpose, men who want to back good patents.

How can I find them? A simple matter. Most of them read the Daily Republican daily, so I'd call their attention to my patent with a Daily Republican Want Ad. That's the way I'd get acquainted with the man to back my ideas.

Increase Your Red-Blood-Cells. That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance compa-nies refuse to insure a great many men because they are under weight? Simply because to be under weight often proves

means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you rious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S., since 1826, has meant to thousands of underweight men and women, a plus in their strength. Hollow cheeks fill out. You stop being a calamity-looker. You inspire confidence. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer. ness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will body. More red-blood-cells: S. S. S. Will build them. > The dwarf French marigolds likewise form a regular, thick-foliaged dwarf hedge, covered with myriads of velvety, yellow, orange and mahogany red bloom. The fire plant, Kochia, is so much used for this purpose that it has become almost too common, but its foliage is always attractive, either in its early season brilliant green or the latter

> Zinnias make a beautiful flowering hedge and grow tall enough to make a more impressive line than the plants previously mentioned. In addition, they furnish a wealth of material for bouquets for the house. Plan this year to decorate the backyard walk. A bed a foot wide along the walk will produce remarkable results in the way of bloom, if given only a little attention in the way of weeding, fertilization and cultivattion during the year.

#### FRENCH SUPPLY FOOD FOR GERMANS

THE SOUP KITCHEN AGAIN

The French military control has established soup kitchens for the civilian population of Herme, the Ruhr Valley. Industries have stopped, the mark is practically at the zero point here, and unless France wants a dead city on her hands, the only wise thing to do is install these soup kitchens. Kindness is a mightier force than arms, as many a nation has discovered.

Three organizations of Nescendthe business district of New York Philadelphia and Wilmington, estimated to be worth more than \$2,-.000,000,000 "Each heir contributes a small

amount annually to the organizations to defray the expenses of the ourt fights" Walter B. Smith, title expert of the Chicago Guarantee and Title company, explained today.

"In the majority of cases the chance of winning fabulous for-

"The best chance rests with those who claim property through the expiration of long leases.

"Title to land sold directly more than a century ago would hardly be charged by the courts now unless the circumstances were peculiarly involved.

"These title hunters claims are often based on records and circumstances the authenticity of which can only be determined by the courts".

Smith asserted that if the higher courts awarded the claimants the property, it would be turned over to them immediately.

"Of course if property in the heart ed over to new owners an endless chain of litigation would start," he

"The present owners would sue the property and so on back a century or two.

The largest claim is for the "con-Clasen Wyikhoff the island of Manhattan, Value of \$50,000,000. The land was originally purchased

for \$24, some blankets and a small quantitl of poor whiskey, per acre. The Woolworth and Singer buildings now stand on the property. Three hundred descendants of Wijkoff organized in Indianapolis to fight for the estate.

In Chicago 250 heirs of Charles Christopher Springer, pioneer land owner of Wilmington, Del., formed themselves into an organization known as "Springer Heirs Inc.," to push their claims to Springer's property. The estate is in the heart of Wilmington and is valued at \$600,-

Handreds of heirs to the "Baker estate," of Philadelphia, which comprises most of the factory dis-

trict, have revived their court bat tle. They plan to redouble their efforts to secure title to the property of Col. Frank Baker, valued at \$550,000,000 which they allege reverted to them at the expiration of long term lease.

## **EUROPE PREPARES FOR WAR IN SPRING**

Reports From Half Dozen Countries Indicated Martial Preparations Are Under Way

FRENCH GOING TO SYRIA

Britain Is Watching Ruhr And Bavaria Fearing Unrest May Break Into Open Warfare

By CHARLES M. MCCANN (U. P. Staff Correspondent)

London, March 9 .- All the old world today seemed preparing for war in the spring. Reports from half a dozen countries indicated martial preparations under waywith conflict apparently only awaiting the break up of winter.

Some of the reports reaching London today were:

1-The French are rushing reinforcements to Syria and General Gourand is going there in person, owing to warnings that guerilla warfare against France has been planned for April.

Warsaw says the Poles have started machinery to call 300,000 reservists to the colors; Poland is believed preparing for possible war of at least three frontiers.

3-The shadow of a Holy war fell across the Near East with discovery of plots by young Turks to influence the new Calips to summon by proclamations posted in all the Mohammedians to arms, followed Moslem quarters of Constantinople, ordering Mohammedans of military age, regardless of nationality, to re-

4-Britain is watching anxiously the Ruhr and Bavaria, in the fear that in one or both of these storm centers, unrest may break into open warfare soon; it is believed likely, in view of recent developments, British troops will be withdrawn from the Rhine next month.

5-Jugo-Slavia, Bulgaria, Italy Lithuania, Soviet Russia, and Greece are invilved in guerilla warfare or anticipate resumption of half dormant conflicts when warm weather

Stockholders of Rushville Cooperative Telephone Receive First Cash Returns From Investment

**WAS ORGANIZED IN 1894** 

Surplus Has Been Used to Build up System and Keep Rates Lew-Accumulation of \$30,000

The Rushville Co-operative Telephone Company, organized in 1894, has just declared its first cash dividend/to the stockholders, and checks amounting to 100 percent, on the stock are being mailed out to owners of stock on record March 1.

The announcement of a cash dividend, and especially one of such a large amount, came as a distinct surprise to the shareholders, and re-years gone by, the stockholders have ingly good, and that an automatic exchange has reduced overhead ex-

Although the dividend is the first each benefit that the stockholders have ever received, yet in all of the years gone by, th stockholders have received a reduction on their telephone service, which has yielded them about a ten percent investment.

The company was organized in 1894 with 400 slines of stock available, at par value of \$25. Today the stock is owned by 245 individuals, as the charter of the organization sets out that no one person shall own more than three shares

Although the par value is only \$25, which is the amount of the 100 percent dividend, yet it has been several years since stock in the company has been sold at par, and the usual run has been at double par or even better by a few points.

In explaining the dividend at this time, George H. Davis, manager, stated that the company had accumulated \$30,000 and had expected to make an additional purchase of some county system this spring, but there is none for sale now, and the directors decided to give the stockholders the benefit of the surplus.

The dividend announcement of the local organization comes at a time when other telephone companies are clamoring for higher rates, asserting that no money can be made unless the rates are raised. The Rushville company has a record unequalled by any city the size of Rushville, in the fact that the rates here have never been raised since the automatic system was installed in 1907.

Even managing with the old rates, the company has prospered through all of the year-, and today owns three buildings, miles of lines, with exchanges in Glenwood and Milroy, and with about one-half of the wires in Rushville laid under ground in 'cables.

The company would have paid dividends long ago, had they stopped with improvements, but the directors pushed forward every effort to extend the service, and held the rates

When the company was organized in 1894 the rate for telephones was 80 cents for each phone, regardless Continued on page three

Farmers who/own and operate tractors "for agricultural purposes" will not have to pay the gasoline tax imposed on the motoring public of Son of Mr. and Mrs. Carl Winegard Indiana by the Seventy-third general assembly. The gasoline tax act which provides for the collection of 2 cents a gallon for gasoline sold and ultimately used in the propelling of vehicles on the public highways of the state exempts gasoline used for the purpose of operating and propelling stationary gas engines, tractors used for agricultural purposes, motor boats, airplanes or air craft, or for cleaning and dyeing or other commercial use except for propelling motor vehicles.

Although consumers of gasoline who fall under the tax exemption provision, will have to pay the tax when they buy gasoline, they will he reimbursed for the amount of the tax by submitting a statement, accompanied by the original invoices showing purchases, to the auditor

The exemption of tractors from the gasoline tax was hotly contested on the floor of the house of representatives when the administration measure was discussed on second reading. Several representatives asserted the farmers were shirking their part of the tax, which is made to increase the funds of the state highway commission for the construction and maintenance of state roads .

It was contended that the tractors cause more damage to the roads than any other motor propelled vehicle. Instances where deep holes apon details of a scheme to avoid bicle. ### B**onus** Bill now **UP TO GOVERNOR**

Bears Recommendation Of Attorney General Lesh That It Be Submitted To Voters Of State

CONTRARY TO M'CRAY'S VIEW

Senator Walter Chambers, State Democratic Chairman, Launches Broadside Against Legislature

Indianapolis, Ind., March 9.—The soldier bonus was still before Governor McCray for approval or reection today bearing the recommendation of Attorney General Lesh that the question be submitted to a referendum as the bill provides, without any attempt to pass on its constitutionality now.

Lesh's opinion was transmitted to the governor's office yesterday afternoon. It was at variance with other advisers who take the position the bonus violates that part of the constitution which prohibits a referendum on any bill enacted by the legislature. As a result of these different ideas, the fate of the bonus was in doubt.

While the governor debated over whether to sign the bill or veto it, Senator Walter Chamber, democratic state chairman. launched a broadside against the republican majority of the legislature just adjourn-

The legislature increased the tax burdens between \$8,000,000 and \$10,000,000 a year, Chambers said. This is in excess of all direct taxes collected in any year prior to 1919 when the Goodrich tax law became effective, Chambers said.

Chambers declared the principal additions to the tax burden consist of increased automobile license fees and the gasoline tax of two cents a gallon which are expected to raise between \$8,000,000 and \$10,-

In reays, the men attaced the 18 inch room of the vault with drills and torches, the latter being abandoned as the first small opening was made, to save the air inside. Through the first opening Dr. Irving Neyman placed an oxygen tube and himself manned oxygen pumps. Kashuer dropped a note to the boy telling him he would soon be out, but the lad was already unconscious near complete suffocation.

As hundreds crowded outside the bank the rescuers worked desperately. Kushner had an ambulance backed up to the door, the motor running and the driver at the wheel ready for a dash to the hospital.

Another hours' work and he lowered himself into the vault and brought DiGiacomo out.

As the boy's parents heard the cheers of the crowd at the rescue, they collapsed in their home where they had been persuaded to stay. Templeton also collapsed as the rescue neared completion.

DiGiacomo's face was bruised and blackened, his finger nails torn and bleeding as he was carried out, evidence of the terror he had gone through before he lost his senses. His body was limp and his breathing hardly discernable with medical in-

#### Justice and The Courts

When justice is lax how can the people be expected to revere the the law? The proprietor of a candy factory in Washington, D. C., was recently arrested for operating an insanitary place. Some 4,000 pounds of candy were confiscated, kerosene was poured over it and it was burned. It had been stored where the rats were messing in it, the stock apparently being drawn on as sales demanded. The offender was fined \$20 on a plea of guilty.

But this was by no means the worst of it. On the sworn testimony of the Federal food inspector it appeared that on December 15, 1920, the offender forfeited \$15 for the same offense. Soon thereafter he was again apprehended and fined \$10 on similar charges. Again on May 19, 1921, he pleaded guilty to a like charge and was fined \$15, and a fourth time, he was fined \$20 for the same thing. Five times was this man hailed before court for endangering the health of his patrons, and each time he received a nominal fine. The fines in the aggregate amounted to \$80 or about the value of 200 pounds of his candy sold at retail.

What a travesty of justice! To what respect are such courts entitled which, when such outrageous affronts against common decency come before them, dismiss them with mere deprecatory action? And when, the offender repeatedly offends and is as repeatedly admonished, what good purpose do such anemic judges subserve? They make laughing stock.

As a contrast to the candy man, the case of a Pennsylvania man suggests the other extreme. This case was reported the same day. The culprit in question was sentenced to serve three years in the Eastern Penitentiary and to pay a fine of \$100 for the theft of two in Russia? chickens.

There are fewer details at hand concerning the chicken stealer, but it seems as if justice were blind in Washington and cross-eyed in Pennsylvania: That to endanger human life by selling rat-defiled candy were a trifling misdemeanor, while the lifting of a couple of pullets pulverized the decalogue. As between the two, however, the Pennsylvania judge is much more to be admired. House members would be quite as The chicken "fancier" will probably leave his neighbors' pullets alone hereafter, while the candy maker will add his latest fine to the price at so much pro ratta, and placidly nwa't his next summons.

Meanwhile the people will be exhorted to respect the law. Obviously there are some courts which should he stimulated to make the law respectable, by the removal of indifferent judges, if necessary.

### LUCK FIGURES IN STATE TOURNEY

Regional Drawings Reveal Lucky Streak for Some Teams, Which Will Have Easy Opponents

OTHERS DRAW HARD CHES

Drawing This Year Will Not Mean That the 16 Entering State, Are the Best Ones to Survive

By HEZE CLARK

Indianapolis, Ind., March 9-The element of luck enters into the Indiana state high school basketball championship tournaments this year more than ever before. This is due to the fact that the state was divided into forty-eight sections instead of thirty-two as was the case in 1922 for the holding of sectional tournaments. The increase was made necessary by the flact that 596 teams were entered and it was impossible to play the games in only thirty-two districts.

It is in the regional tourneys that luck is most evident. They are to be played tomorrow and Saturday in three cities—Ft. Wayne, Dafayette and Bloomington, Teams that are fortunate enough to have drawn the Bloomington regional will have to play only one game there.

Some of the teams at Lafayette and Ft. Wayne will also play in only one game, having been lucky enough to draw a "bye". For example there are eighteen teams entered at both Lafayette and Ft. Wayne. When these teams have played one game each, nine teams will still remain. This number must be reduced to five and eight of them will play a second ganie.

It is evident that luck in the draw plays an important part in winning championships.

Sixteen teams will come to Indianapolis to fight if out for state honors March 16 and 17. They will be the teams that qualify at regional iourneys.

This does not mean that the sixteen teams are the best in the state owing to the fact that some of the drawing caused a number of the hest teams to meet in the regionals and some strong ones were eliminated. An example is the Bloomington Bedford game. One of these teams will be eliminated in the regional tourneys. The same is true of Columbus and Central of Evansville. Again it is true in the case of Frankfort and Emerson of Gary who will meet at Lafayette, Some of the very strongest teams there been fortunate enough to draw in the regionals an opponent that critics do not consider unusually strong.

### SCHOOL PROFITED WITH THE TOURNEY

Athletic Association Receives \$479.-24 as its Share of Receipts at Sectional

REPORT BY E. B. BUTLER

Balance After all Expenses Are Paid Probated on Basis of Season Tickets Sold

The Rushville high school athletic

association made more money on the tournament last week than in any other tourney, according to the financial statement issued today by E. B. Butler, principal of the high school, which shows the local treasury better off to the extent of \$479.

Although the total receipts\ this year were not as great as two years ugo, yet the local school made more money on account of the distribution of funds, given on a rating as to the number of tickets sold.

The biggest expense was the handling of teams, which cost \$608 .-06 for lodging, meals, and other expenses. The total receipts were \$1,-542.86; and a schedule of payment of bills was given in advance by the state association, showing how the finances were to be tabulated, and distributed.

Another factor which caused Rushville to get more money this year was the fact that only 14 teams were entered, while in one tourney held here there were 21 teams, and this added greatly to the expense. The complete report by Mr. But-

#### Thin? Run-down? Sure Way to Get Right Weight

Increase Your Red-Blood-Cells. That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance compa-nies refuse to insure a great many men because they are under weight? Simply because to be under weight often proves

ans you are minus ner -cells in your blood, means you are minus nerre-power, minus red-cells in your blood, minus bealth, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S., since 1826, has meant to thousands of underweight men and women, a plus in their strength. Hollow cheeks fill out. You stop being a calamity-looker. You inspire confidence. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them. Ladies and gentlemen, a peaky, bouy face doesn't make you look very important or preity, does it? Take S. S. It contains only pure verestable medicinal ingredients. S. S. S. is sold at all drug stores in two sizes. The larger size battle is the more economical.

BILLY SUNDAY PRESENTS A "SMASHING" ARGUMENT

When the well-known envangelist visited Knoxville, Tenn., he showed that he still had the power of his boxing days. At the invitation of city officials, he knocked thirty stills "into hell" later using the damaged property as a text for a sermon. Billy Sunday is holding revivals through Tennessee and Kentucky, and thousands of mountaineers as well as city folks are attending his meetings.

#### THE SOUP KITCHEN AGAIN

The French military control has established soup kitchens for the civilian population of Herme, the Ruhr Valley. Industries have stopped, the mark is practically at the zero point here, and unless France wants a dead city on her hands, the only wise thing to do is install these soup kitchens. Kindness is a mightier force than arms, as many a nation has discovered.

Descendants Claim Tracts In Business Districts Of New York Philadelphia And Wilmington

**WORTH MORE THAN 2 BILLION** 

Best Chance Rests With Those Who Claim Property Through Expiration Of Long Time Leases

By J. L. O'SULLIVAN (U. P. Staff Correspondent)

Chicago, March S .- Fortune huners of today seek hidden riches in the hearts of great cities instead of searching for buried pirate gold on spot, and by the time you say Jack reasure islands. They play for hig Robinson—out comes the rheumatic takes with a small entrance fee.

Armed with records, deeds or recorders offices, attorneys planied to enter court and fight for esates valued at more than \$10,000,-.000,000

Three organizations of descendints of early settlers in eastern cities alone, claimed large tracts in the business district of New York Philadelphia and Wilmington, estimated to be worth more than \$2,-000,000,000

"Each heir contributes a small amount annually to the organizations to defray the expenses of the court fights" Walter B. Smith, title expert of the Chicago Guarantee and Title company, explained today:

"In the majority of cases the chance of winning fabulous fortune is slim.

"The best chance rests with those who claim property through the expiration of long leases.

"Title to land sold directly more than a century ago would hardly be charged by the courts now unless the circumstances were peculiarly involved.

"These title hunters claims are often based on records and circonstances the authenticity of which can only be determined by the courts".

Smith asserted that if the higher courts awarded the claimants the property, it would be turned, over to them immediately.

"Of course if property in the heart of a city like New York or Philabuildings, streets and store, is turned over to new owners an endless chain of litigation would start," he said.

"The present owners would sne the property and so on back a century or two.

The largest claim is for the "conservatily, estimated estate, of Peter Clasen Wyikhoff the island of Manhattan, Value of \$50,000,000.

The land was originally purchased for \$24, some blankets and a small quantitl of poor whiskey, per acre. The Woolworth and Singer buildings now stand on the property. Three hundred descendants of Wijkoff organized in Indianapolis to fight for the estate. ·

In Chicago 250 heirs of Charles Christopher Springer, pioneer land owner of Wilmington, Del., formed themselves into an organization known as "Springer Heirs Inc." to push their claims to Springer's property. The estate is in the heart of Wilmington and is valued at \$600, 000,000.

Hundreds of heirs to the "Baker estate," of Philadelphia, which comprises most of the factory dis-

rict, have revived their court battle. They plan to redouble their efforts to secure title to the property of Col. Frank Baker, valued at \$550,000,000 which they allege reverted to them at the expiration of ong term lease.

Reports From Half Dozen Countries **Indicated Martial Preparations** Are Under Way

FRENCH GOING TO SYRIA

Britain is Watching Ruhr And Bavaria Fearing Unrest May Break < Into Open Warfare

By CHARLES M. MCCANN
(U. P. Staff Correspondent)
London, March 9.—All the old

vorld today seemed preparing for war in the spring. Reports from half a dozen countries indicated martial preparations under waywith conflict apparently only await ing the break up of winter.

Some of the reports reaching London today were:

1-The French are rushing reinforcements to Syria and General Gourand is going there in person, owing to warnings that guerilla warfare against France has been planned for April.

2-An unconfirmed report from Warsaw says the Poles have started machinery to call 300,000 reservists to the colors; Poland is believed preparing for possible war of at least three frontiers.

3-The shadow of a Holy war fell across the Near East with discovery of plots by young Turks to influence the new Calips to summon by proclamations posted in all the Mohammedians to arms, followed Moslem quarters of Constantinople, ordering Mohammedans of military age, regardless of nationality, to report at once to recruting stations.

4-Britain is watching anxiously the Ruhr and Bavaria, in the fear that in one or both of these storm renters, unrest may break into open warfare soon; it is believed likely, view of recent developments, British troops will be withdrawn from the Rhine next month.

5-Jugo-Slavia, Bulgaria, Italy Lithnania, Soviet Russia, and Greece are invilved in guerilla warfare or anticipate resumption of half dormant conflicts when warm weather
